DMP

Summary:

- Rising OBV on the 1HR
- Bullish div on RSI on 4 hr
- Break back through resistance

Obiously not sure when he entered but from this screenshot we can see the price he entered

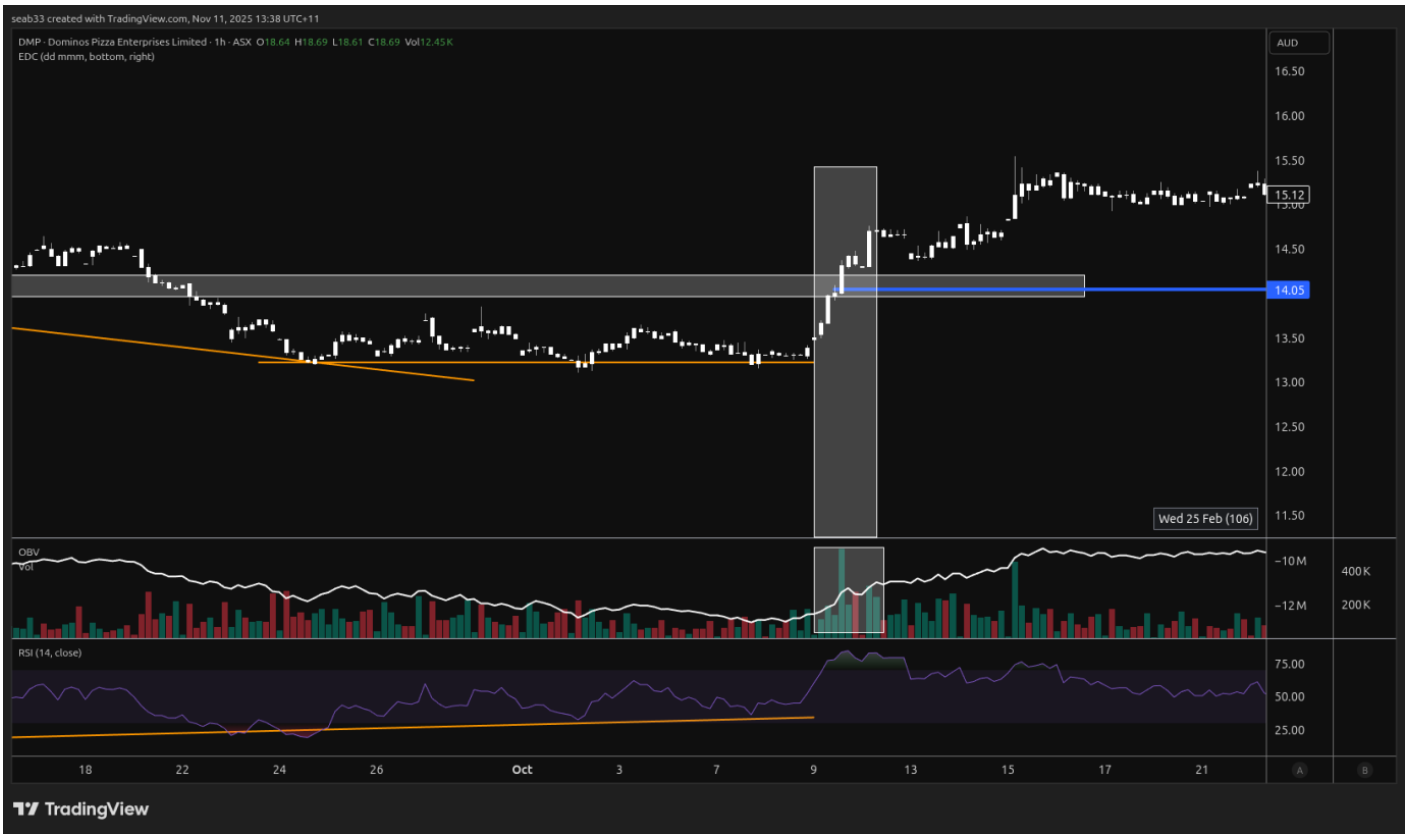

i would have a guess and say its here at 14.07 on at 1pm on 9 oct 2025

on the 4 hr we got very strong bullish div on the rsi

on the obv on the 1 hr we can see that was rising quite significanly

although the part before the final low is a bit hard to figure out whats going on since its just chop sideways
